## Work Experience

### ○ Junior Full Stack Developer

ansrsource (Oct 2022-Present)

Technologies/Tools Used: **React.JS, Next.js, Node.js, React Native, Material UI, Jira**

- Created a learning platform with **Next.js** by adding **dynamic page routing**, thereby **reducing FCP by 25%**.
- Created **Node.js** application to implement a **microservice** that sends push **notifications** to the mobile app users using **Firebase**.
- Added features on the **React Native** mobile app and styled them using **styled components**

## Projects

### ○ Libertas - Online Discussion Platform

Deployed Project: [Link](#) | Source Code: [Frontend](#) and [Backend](#)

Technologies/Tools Used: **Next.js 13.4, Material UI, Node.js, Express, MongoDB, JWT, Firebase**

- **Full stack** web application, backend in Node.js and Express with a lot of API routes, frontend in Next.js 13.4
- Users can **sign up, login, logout, create posts** with **text** and **image** support, **like/dislike, edit** and **delete** posts, write **comments, edit profile** details, **delete account**, etc.
- Used **JWT authentication** with **email feedback** when user logs in and signs up, **forgot password support** with email and **good UX**.
- Stores **images in Firebase storage**, rest of the data in **MongoDB** database. Will add more features.

### ○ Portfolio Website

Deployed Project: [Link](#) | Source Code: [Link](#)

Technologies/Tools Used: **ReactJS, Tailwind CSS, Netlify, JavaScript, HTML, CSS**

- Developed a **responsive** one-page portfolio website using **React** and **Tailwind CSS**.
- The website consists of about, skills, projects, and contact sections designed with **Tailwind CSS**.

## Open Source Contribution

- **Contributed** to 6+ GitHub repositories to improve their documentation by using issues and pull requests in **Git**.

## Languages

- **English** (Full professional proficiency)
- **Hindi** (Full professional proficiency)
